**Re: Richard Arthur Evans, M.D.
Case # CR-H-15-15-02
Status Report**

Dear Judge Hoyt;

The defendant was referred to Pretrial Services following his conviction on July 26, 2016. At the conclusion of trial, his conditions were amended to add Location Monitoring and to have a Psychiatric Evaluation completed and attend any treatment if deemed appropriate by this agency.

Attached is the letter we received from Dr. Milton Altschuler, psychiatrist, who diagnosed the defendant with Bipolar in 1964. This officer spoke with Dr. Altschuler on September 14th, prior to completing this report and was informed the defendant does not display any signs of depression nor is any treatment recommended at this time.

In regards to compliance, the defendant is compliant and has made himself available to meet with our office as requested. To date, there have been no location monitoring violations to report.

This officer believes both conditions have been satisfied and removal is appropriate.
